The Child and Family Information Directory came about in response to requests from local service providers and families looking for children’s services. To meet this need, the Marrickville/ Leichhardt/ Glebe Child and Family Interagency undertook the compilation of this directory in conjunction with Marrickville Library and History Services. This collaborative partnership would like to acknowledge the support of Families NSW and Marrickville Council for the publication of this directory.

The Child and Family Directory focuses on the Marrickville and Leichhardt local government areas and the suburb of Glebe.

The directory does not list ALL the services available and is intended for use as a guide to services available in the local area. Listings for where you can go to seek further information are included on the pages that follow.

Most services are free. Where a fee for service applies, this will be stated on individual entries. Every attempt was made to ensure service information was correct and up to date at the time of publication. It is recommended that phone or email contact be made with individual services listed in case there are any changes to the information provided in this booklet.

## Community Information Questionnaire

To be included on the Community Information Directory and in subsequent versions of this directory, please complete the form below and email to community.info@marrickville.nsw.gov.au or fax 9569 2829 or post to Community Information Officer Marrickville Library PO Box 79 Marrickville NSW 1475.

The Marrickville/Leichhardt/ Glebe Child & Family Interagency is utilising the Community Information Database to generate the service directory. This requires a process of updating existing service information and/or adding new service information to ensure the directory produced has information that is current. Using the database to generate the directory enables us to update information via an existing process coordinated by librarians at councils who utilise the database.

We reserve the right to modify the information you supply to ensure consistency between listings in the directory. There is no charge to be listed in the directory but the benefits are numerous.
